

Keith's Class by Keith Rubow

Drop <direction>

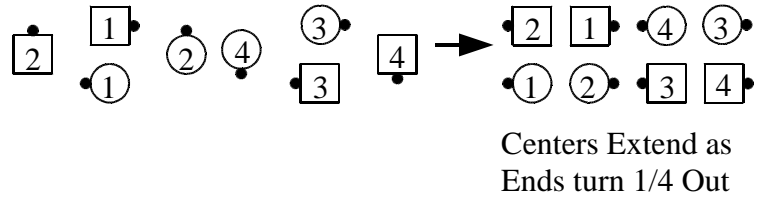

Welcome to Keith's Class. This month we will look at Drop <direction>. This call changes a diamond or general 1/4 tag into a box of 4. The <direction> may be In/Out/Right/Left/Back/or Nothing. Not all directions are legal from all starting formations.

DEFINITION: Centers (who must have a mini-wave handhold) Extend to a 2x2 box with the ends with the same handedness they started with, as Ends turn 1/4 in the indicated direction and adjust to a box.

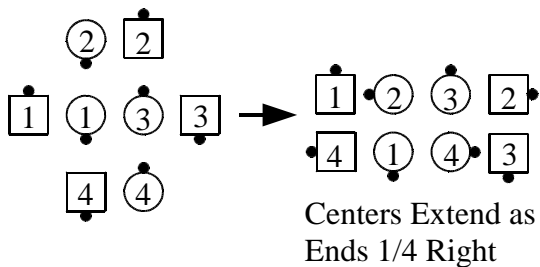

Drop In

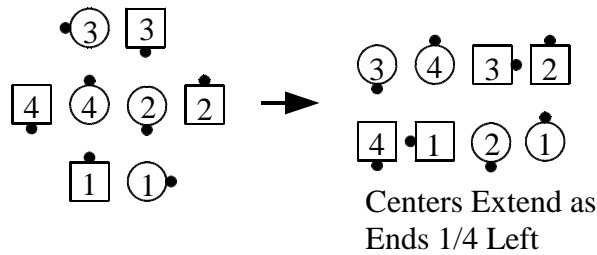

Drop Out

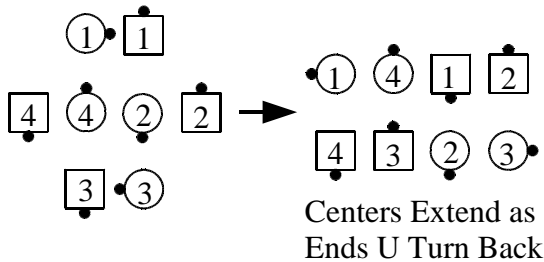

Drop Right

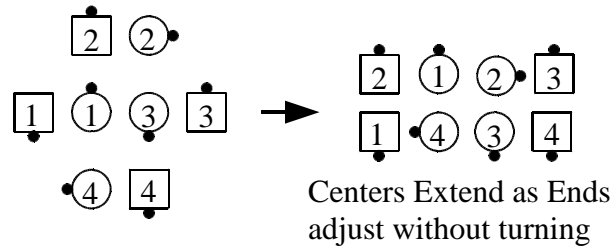

Drop Left

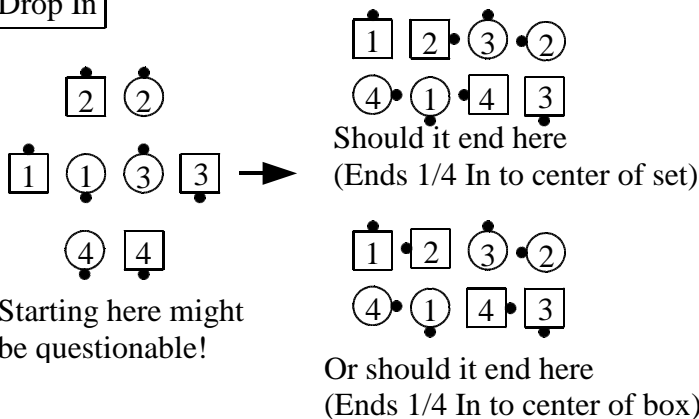

Drop Back

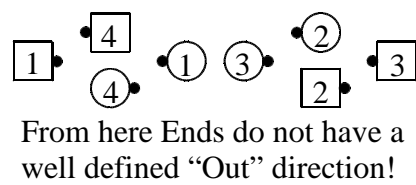

Drop Nothing

Drop In

Drop Out

Remember, the position the ends adjust to is always determined by the handedness of the centers.
